Retractors and Distractors for Spinal Surgery

Neuro-Spine Essentials

Neoner Self Retaining Retractor Systems

PT 1152
Caspar Distractor
Maximum opening 70 mm
Screw height 60 mm

OL 1030S
Ozer Retractor/Distractor
5 different dimensions from 40 to
60 mm
Ceramic coating is standart

OM 6877
Side Loading Mechanism
Longitudinal Retractor
Ring Handle
18 cm length
75 mm maximum opening

Ceramic coating is optional

OL 1040
Side Loading Mechanism
Transverse Retractor
Tiltable butterfly screw
12 cm rack length

Ceramic coating is optional

Neoner Hand Retractors, Distraction Pins Screw Drivers, Blades

Caspar Distraction Pin

Neoner Side Loading Self Retaining Retractor Systems Cervical Longitudinal Retractor

Side loading mechanism enables to attach the blades to the retractor easily . Changing the blades and obtaining the retraction is more comfortable and fast.

Blade sizes of deepness from 40 mm up to 60 mm, blunt and toothed type in various models including traditional Cloward.

Ceramic coating prevents light reflection and maximizes corrosion resistance.

OM 6877S

■ Blades are used as hand held retractors with the handles

■ They can be easily attached to the retractor frame.
